

Trical Pellets are a highly concentrated form of precipitated calcium carbonate.

Trical Pellets are designed to ensure rapid availability for:

FOLIAR-AVAILABLE CALCIUM PROVIDES:

- CELL DIVISION & STRENGTH**
- RESPIRATION & ROOT DEVELOPMENT**
- DEFENSIVE STRESS NUTRITION**
- INTERNAL SODIUM BUFFERING**

SOIL-AVAILABLE CALCIUM PROVIDES:

- BENEFICIAL MICROBIAL ACTIVITY**
- SALT MANAGEMENT / SOIL FLUSHING**
- TOXICITY BUFFERING**

NUTRIENT ANALYSIS

Calcium (Ca)5.00%
Derived from calcium carbonate precipitate.

Net Weight: 12 X 0.5 lb (227 g) pellets

PROFESSIONAL USE GUIDELINES

RATE OF APPLICATION:

Trical Pellets will dissolve at different rates depending on water pressure, chemistry, temperature, and flow rate.
